443 Condamine Street  
North Manly 2100

28th November 1996

Dear Joe,

At the last members meeting of the D.C.S. The Boomerangs the discussion once again came to the position of "VORST".

The president said he discussed it with you verbally some time ago. It now has been more than 4 months ago since you were nominated by our president. The members feel that for all your services and your long service as a member but most of all as one of the foundation members you deserve something "Unique".

The members decided to bestow upon you the honour of "VORST". They also feel that there is no other position that is acceptable to them that befits the honour you deserve.

The position of Vorst will be unique and there will be only one(1) Vorst during the "Reigning Vorst's life. There can not be another Vorst at the same time. This all will be written into the constitution.

I would be very pleased if you could give me your answer in writing as soon as possible so we can make all the necessary arrangements.

With a Boomerangs Alaaf, I remain,

Honourary Secretary

J. Brillman.
